Title:	Intern
Sector of assignment:	Sustainable Development
Organizational unit:	UNDP-GEF
Country and Duty Station:	Turkey – Istanbul Regional Hub (IRH)
Internship duration:	6 months
Supervisor's name:	Onno van den Heuvel
Supervisor's title:	BIOFIN Global Manager

II. CORPORATE BACKGROUND:

UNDP works in about 170 countries and territories, helping to achieve the eradication of poverty, and the reduction of inequalities and exclusion. We help countries to develop policies, leadership skills, partnering abilities, institutional capabilities and build resilience in order to sustain development results.

UNDP is working to strengthen new frameworks for development, disaster risk reduction and climate change. We support countries' efforts to achieve the new Sustainable Development Goals, which will guide global development priorities through 2030. The key 2030 Agenda principle of leaving no one behind and stamping out inequality is at the core of everything we do.

UNDP focuses on helping countries build and share solutions in three main areas:

- Sustainable development
- Democratic governance and peacebuilding
- Climate and disaster resilience

In all our activities, we encourage the protection of human rights and the empowerment of women, minorities and the poorest and most vulnerable.

III. INTERNSHIP OFFICE BACKGROUND:

In recent decades, biodiversity finance tools and solutions have demonstrated their importance for achieving biodiversity goals and broader sustainable development objectives. Improved choice, design and implementation of effective, well-tailored finance solutions will strengthen countries' chances of achieving national and global biodiversity targets.

The Biodiversity Finance Initiative – BIOFIN – was developed to provide a comprehensive methodology for governments to: 1) review the existing policy context, 2) measure expenditure levels for biodiversity, 3) calculate future financial needs and 4) design strategic plans to deploy the right mix of finance solutions, tailored to the country context. The methodology has been conducted in 35 countries to date, with many now having reached the implementation stage.

BIOFIN is supported by the Governments of Germany, Flanders, Norway, Switzerland and the European Union. The initiative is part of UNDP's Global Environmental Finance (UNDP-GEF) unit, hosted by the Ecosystems and Biodiversity (EBD) cluster under UNDP's Bureau for Policy and Programme Support (BPPS).

BIOFIN's first phase (2012-2018) enabled full assessments and initial implementation of finance plan elements in target countries. Based on lessons learned, a new and comprehensive version of the BIOFIN Methodology was developed. Significant scaling up of finance solutions is required in all countries to address the biodiversity finance challenge.

BIOFIN's second phase (2018 – 2022) focuses mainly on the implementation of prioritised finance solutions while also allowing additional countries to undertake the initial assessments and create the finance plan. See www.biodiversityfinance.org for further information.
